Checklist

Section	Requirement	P	F	N	Comment
---------	-------------	---	---	---	---------

D Essential Health and Safety Requirements					
1	Toys and parts of toys must be of such dimensions that they do not present a risk of asphyxiation by closing off the flow of air as a result of internal airway obstruction caused by objects wedged in the mouth or pharynx or lodged over the entrance to lower airways. (You can show your toy meets this requirement if it passes the test in checklist A sections 5, 6, 7, 8 and 9)				
2	Toys that are clearly intended for use by children under 36 months, their component parts and any detachable parts must be of such dimensions to prevent them being swallowed or inhaled. (You can show your toy meets this requirement if it passes the test in checklist A sections 5, 6, 7, 8 and 9)				
3	The packaging used for toys must not present a risk of strangulation or asphyxiation caused by airway obstruction.				
3	Toys must not constitute a dangerous flammable element, and must be composed of materials which either: <ul style="list-style-type: none"> • Do not burn if directly exposed to a flame • Are not readily flammable • Burn slowly if they do ignite (You can show your toy meets this requirement if it passes the test in checklist B)				
4	Toys must not present a risk of adverse effects on human health due to exposure to the chemical substances or mixtures from which the toy is made. (You can show your toy meets this requirement if it passes the criteria in checklist C)				
5	Toys must be designed and made in a way that ensures hygiene and cleanliness requirements are met in order to avoid any risk of infection, sickness or contamination. (You can show your toy meets this requirement if it passes the test in checklist A sections 2 and 3)				

Technical File

1. Description of product

Type of toy: <basic description>

Colour(s): <Various – see example photographs>

Dimensions: <as appropriate>

Distinguishing marks/labelling: <ideally photo(s) or original graphic(s), otherwise description. Relevant marks/labelling are any warnings, age specifications, CE marks, company name and contact details etc.>
